

# VALUE-ADDED SERVICE & SUPPORT FOR EVERY INSTALLATION!

## QUALITY

- 100% Testing of all custom manufactured assemblies and harness products.
- High quality assemblies start with the best components and we use the best quality materials.

## ACCURACY

- Accurate reproduction of your specifications and blueprints.
- Our industrial engineering group can help you design your cable assembly needs and then make them reality.

## METHODOLOGY

- Detailed development of the manufacturing process to produce the most cost effective products
- Experienced personnel supervise our tightly controlled assembly production processes.

## COMMITMENT

- Dedicated professionals experienced in JIT scheduling & delivery supervise all facets of the production process.
- Lifetime guarantee against defects in manufacture of all custom assemblies.

PREMIUM PRODUCTS FOR LESS... STRUCTURED CABLING ■ HOME TECHNOLOGY ■ INSTALLATION TOOLS

## MULTI-CONDUCTOR PATCH CABLES

Providing production capabilities of D-Sub computer cables with DB-9, DB-15, HD-15, DB-37 and DB-50 connectors terminated to standard or customer custom pinouts.

## COAXIAL ASSEMBLIES

Quest has the capability to terminate coaxial cable assemblies from micro RG-174 connectors to larger RG-11 N Style connectors. Also available are 75 Ohm video cables constructed of Quest weatherproof compression connectors, color-coded for our customers applications.

## OEM PRODUCTS

Quest offers custom built OEM products based on customer designs. PC board construction with surface mount technology is available depending on specified designs.

## FIBER OPTIC ASSEMBLIES

Fiber Optic Cable assemblies are available in any length in a Single-Mode and Multi-Mode versions; as simplex and duplex assemblies; or in multi-strand custom configurations per customer requirements.

## UTP (DATA CABLES)

With domestic and off-shore manufacturing capabilities, Quest has the capability to build custom Cat5E, Cat6 and Cat6A patch cables to our customers specifications including: custom lengths; booted or non-booted; molded or assembled; and in a choice of various colors.

## CUSTOM PATCH PANELS

Quest has a design and manufacturing capability to custom build Keystone BNC, F and RCA style patch panels, fiber coupling panels, as well as telecom & datacom patch panels designed to our customers requirements.
